Partner Portal – Start Here

Claude Partner Network (CPN) · Services Program · Where we stand, what the portal contains, and who reads what · Prepared 22 October 2026

The short version

• We are a **Certified** partner (tier 2 of 5). The Certified requirement is 3 certified people; we have **4**.
• The portal holds **120 items**, but only **73 different PDFs** – many are the same file listed under several numbers (for example the Program Guide appears 5 times).
• Most of it is **not for us yet**: co-selling, deal referrals, the partner directory, sandbox credits and funding start at **Select or Preferred**.
• What matters now: **(1) accept the partner agreement, (2) certify 6 more people, (3) register delivery work, (4) get one public customer story** – that is the path to Select.

1. Where we stand today

Item	Status	Source
Tier	**Certified** (Turquoise badge), program active	Partner portal (EULER)
Active certified individuals	**4** (Certified needs 3; **Select needs 10**)	Partner portal (EULER)
Deployed joint customers	0 (Select needs 2)	Partner portal (EULER)
Public customer stories	0 (Select needs 1)	Partner portal (EULER)
Partner agreement	**Open task: "Accept the Claude Partner Network Agreement"** – due date was 20 July 2026 (overdue)	Partner portal onboarding flow
Commission	0% on all products (this program pays no commission at Certified)	Partner portal (EULER)

2. What the portal contains (7 groups)

Group	What it is	Items	Main team
A. Program rules and tier	The rulebook (Program Guide), FAQ, tier summaries, announcement rules, contact card, how to register work	about 16	Owner / Admin
B. Training and certification	Exam guidebook, role-by-role training playbook, practice-building decks, sandbox guide	7	Training lead, Owner
C. Delivery	Rollout playbook, checklists, templates, 90-day map, workshop kit	10	Delivery / technical
D. Selling and offerings	Co-sell series, positioning and sizing, scoping toolkit, buildbooks, 8 industry evidence packs, adoption offerings	about 17	Sales, Owner
E. Product and sales enablement	Model launch FAQs, 2-pagers and decks (Haiku, Sonnet, Opus, Fable), product decks (Enterprise, Cowork, Code, Platform, MCP, SDK, Agents, Skills)	24	Sales, technical
F. Brand and marketing assets	Certified badge (PNG and SVG), social share image, announcement kit	8	Marketing, Owner

Group	What it is	Items	Main team
G. Links, courses and media	Partner Academy, Production Guides, certification page, 4 free courses, MCP resources, GitHub repos, developer newsletter, Claude Science session video	about 15	Technical, Training

The complete list of every item, with a one-line description and who should read it, is in folder 05_Reference_Library.

3. Who should read what

Team	Open this folder first	Then
Owner / Admin	01_Owner_and_Admin	00 (this page), 04_Training_and_Exams
Sales / Business development	02_Sales_Team	Product kits table in the Sales guide
Delivery / engineers	03_Delivery_Team	04_Training_and_Exams (which exam to take)
Training lead and every future exam taker	04_Training_and_Exams	Exam booking guide (step by step)
Anyone looking for one specific document	05_Reference_Library	Document index

4. What Certified does and does not give us

We have	We do NOT have yet (starts at)
Full Partner Hub access Partner Academy (free courses) Certification exams (open access; see exam guide for price) Claude Partner badge and brand assets CPN Connect monthly broadcast Product update calls Services Registration (register delivery work – counts toward tier) PAM AI (always-on program assistant), self-service support	Sandbox credits – Select ($3K/yr) Partner directory listing – Select Customer Story Incentive ($5K per approved story above floor) – Select Partner Delivery Funding – Select Deal referral and deal protection – Preferred Co-sell support – Preferred Named partner manager – Global Premier

5. The ten things to do, in order

- ☐ **Accept the Claude Partner Network Agreement** in the portal (overdue since 20 July 2026). Owner.
- ☐ Confirm the Hub shows us as **Certified** and download the badge. Admin / Marketing.
- ☐ **Certify 6 more people** (Developer or Architect exams only – the Associate exam does not count). Training lead. See folder 04.
- ☐ Book exams **before 31 December 2026** – the Program Guide shows a 100% exam discount through that date (our own booking showed a free price).
- ☐ Pick the 2 customers that will become our **deployed joint customers** and collect their Organization IDs. Delivery lead.
- ☐ **Register every live Claude engagement** in the Partner Hub (Services > Submit Project) – at scoping, and no later than 60 days after work begins. Delivery lead.
- ☐ Open a **customer-story conversation** with one client now – it is the slowest item. It needs a public URL and a measurable result. Owner / Marketing.
- ☐ Announce our tier using only the **approved wording** (see Owner guide). Marketing.
- ☐ Pin the **contacts and escalation card** for the whole firm. Admin.
- ☐ Read the **Program Guide sections 2–3 and 4.3**; review this pack every month (monthly promotions start November 2026). Owner.

6. Read this before you trust a document

- **Several documents disagree.** The agreement outranks the Program Guide; the Program Guide outranks the FAQ and the Hub decks. When two documents differ, follow the Program Guide (Version 2, effective 5 October 2026).
- **Two support emails appear:** partner-support@anthropic.com (Program Guide and newer documents) and partner-success@anthropic.com (older Hub decks). Start with PAM AI in the Partner Hub; if you email, use partner-support first.
- **Review dates differ:** older decks say 15 January; the Program Guide says 1 January and 1 July for Preferred and Global Premier, annual review 31 December, and monthly promotions for Certified and Select starting November 2026.
- **Some pages are out of date:** the Customer Story Guide's "October 1, 2026" deadline has passed; several model sheets still list older models; some decks pre-date the Certified tier.
- **Many decks are stamped CONFIDENTIAL** (product decks, co-sell series, training guidebook). Treat the whole pack as internal. Do not forward to customers unless Anthropic's terms say you may.

7. How the pack is organised

Folder	Contents
00_START_HERE	This page
01_Owner_and_Admin	Owner and Admin Action Guide (PDF + Word)
02_Sales_Team	Sales Team Guide (PDF + Word)
03_Delivery_Team	Delivery and Technical Team Guide (PDF + Word)
04_Training_and_Exams	Training and Certification Guide, and the step-by-step Exam Booking Guide (PDF + Word)
05_Reference_Library	Document Index – all portal items, one line each (PDF + Word)

Owner and Admin Action Guide

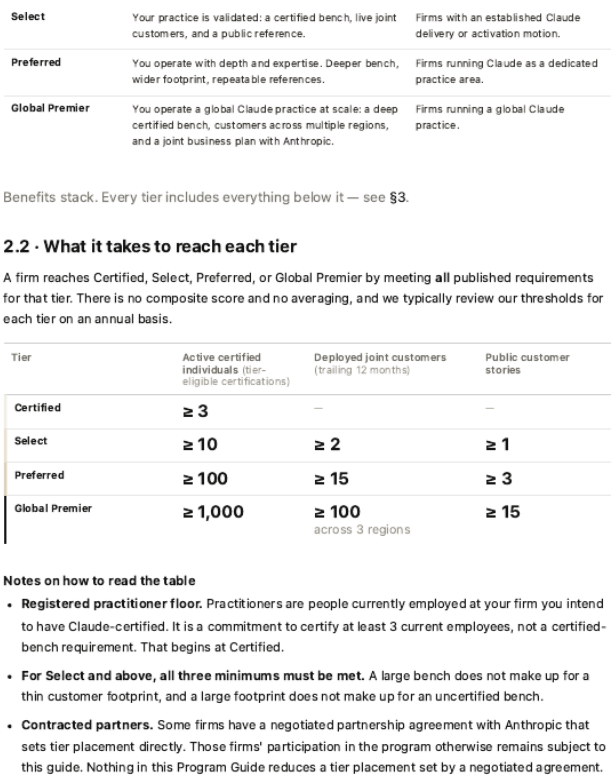

What the firm must do as a Certified partner · How to do it · Which portal document has the full detail

Your job in one paragraph
Keep us in good standing, move us from Certified to **Select**, and make sure the team does the few things that earn credit: **certify people, register delivery work, and publish one customer story**. Everything else in the portal is either a how-to for those three things or a benefit that unlocks later.

1. The rules that matter (Program Guide, Version 2, effective 5 Oct 2026)

Tier	Certified individuals	Deployed joint customers	Public customer stories
Certified (us)	3 or more	–	–
Select (next)	10 or more	2 or more	1 or more
Preferred	100 or more	15 or more	3 or more
Global Premier	1,000 or more	100 or more, across 3 regions	15 or more

- **All requirements must be met together**, measured over the last 365 days.
- **Only these exams count:** Claude Certified Developer – Foundations, Architect – Foundations, Architect – Professional. The **Associate** exam does **not** count. One person counts once even with several certifications.
- **Deployed joint customer:** a unique customer with a live Claude production deployment where we are the registered delivery partner. Pilots and proofs of concept do not count. We must give Anthropic the customer's **Organization ID** (or AWS / Google Cloud / Azure account ID).
- **Public customer story:** live on a public URL (no NDA or login), names Claude and a third-party client, describes a production deployment, shows at least one measurable business result, and the client approved it.
- **Reviews:** Certified and Select are promoted **monthly** (starts November 2026) – meet the requirement by month end and the promotion follows the next month. Preferred and Global Premier are reviewed 1 January and 1 July (from 1 January 2027). Once promoted we keep the tier through at least the next annual review (31 December) plus a 90-day remediation window.
- **Moving up more than one tier** is allowed if we meet the higher tier's requirements.

Select	Your practice is validated: a certified bench, live joint customers, and a public reference.	Firms with an established Claude delivery or activation motion.
Preferred	You operate with depth and expertise. Deeper bench, wider footprint, repeatable references.	Firms running Claude as a dedicated practice area.
Global Premier	You operate a global Claude practice at scale: a deep certified bench, customers across multiple regions, and a joint business plan with Anthropic.	Firms running a global Claude practice.

Benefits stack. Every tier includes everything below it — see §3.

2.2 · What it takes to reach each tier

A firm reaches Certified, Select, Preferred, or Global Premier by meeting **all** published requirements for that tier. There is no composite score and no averaging, and we typically review our thresholds for each tier on an annual basis.

Tier	Active certified **individuals** (tier-eligible certifications)	Deployed joint customers (trailing 12 months)	Public customer stories
Certified	≥ 3	–	–
Select	≥ 10	≥ 2	≥ 1
Preferred	≥ 100	≥ 15	≥ 3
Global Premier	≥ 1,000	≥ 100 across 3 regions	≥ 15

Notes on how to read the table

- **Registered practitioner floor.** Practitioners are people currently employed at your firm you intend to have Claude-certified. It is a commitment to certify at least 3 current employees, not a certified-bench requirement. That begins at Certified.
- **For Select and above, all three minimums must be met.** A large bench does not make up for a thin customer footprint, and a large footprint does not make up for an uncertified bench.
- **Contracted partners.** Some firms have a negotiated partnership agreement with Anthropic that sets tier placement directly. Those firms' participation in the program otherwise remains subject to this guide. Nothing in this Program Guide reduces a tier placement set by a negotiated agreement.

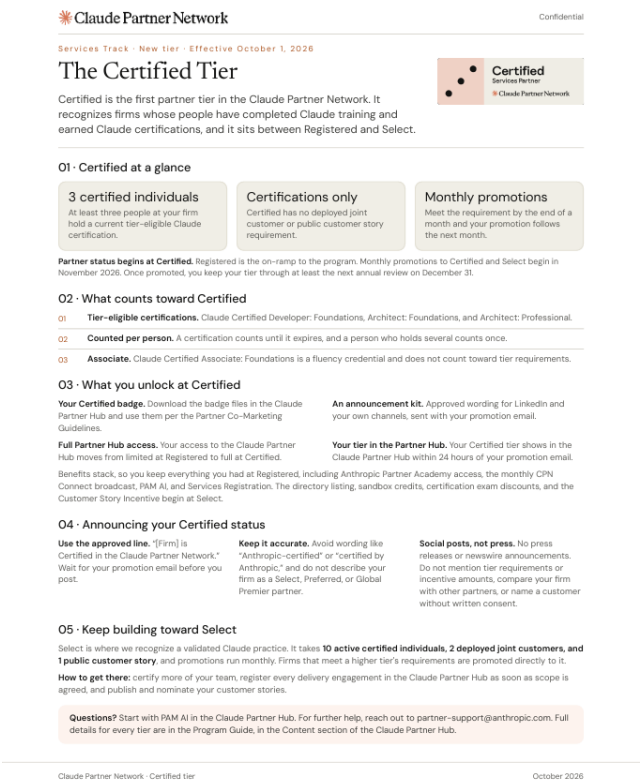

Program Guide p.4 – the tier requirements table. Source: portal document “CPN Program Guide”.

2. Our to-do list

#	Action	Owner	When	How / where
1	**Accept the Claude Partner Network Agreement**	Owner	Now (overdue since 20 Jul 2026)	Partner portal > onboarding flow “Accept the Claude Partner Network Agreement”. Agreement text: anthropic.com/legal/cpna
2	Confirm tier shows **Certified** in the Hub; download badge	Admin	This week	partnerhub.anthropic.com. Tier shows within 24 hours of promotion email
3	Certify **6 more people** (4 now, need 10)	Training lead	Book before 31 Dec 2026	Folder 04_Training_and_Exams
4	Register all live Claude engagements	Delivery lead	At scoping, no later than 60 days after work begins	Hub > Services > Submit Project (see Delivery guide)
5	Start one customer story	Owner / Marketing	Now – slowest item	Customer Story Guidebook (portal). Ask the client for written consent; include a hard metric; publish on a public URL
6	Announce Certified status	Marketing	After the badge email	Approved wording below
7	Name one person for PAM AI / Hub questions and pin the contact card	Admin	This week	Contacts and intake deck, p.6
8	Monthly: check the Hub “Current Tier” panel	Owner	Monthly	Hub dashboard refreshes weekly
9	Draft our own SOW template and scoping worksheet	Owner / Sales	Next 30 days	Anthropic does not supply a SOW template

3. What we may say publicly about our tier

Do: use the approved line – **“[Firm] is Certified in the Claude Partner Network.”** Wait for the promotion email first. Post on social media only. Use the badge from the Hub.
Don’t: say “Anthropic-certified” or “certified by Anthropic”; call ourselves Select, Preferred or Global Premier; issue press releases or newswire items; quote tier requirements, incentive amounts or comparisons with other partners; name customers without their consent.

Claude Partner Network — Confidential

Services Track · New tier · Effective October 1, 2026

The Certified Tier

Certified — Services Partner — Claude Partner Network

Certified is the first partner tier in the Claude Partner Network. It recognizes firms whose people have completed Claude training and earned Claude certifications, and it sits between Registered and Select.

01 · Certified at a glance

3 certified individuals	Certifications only	Monthly promotions
At least three people at your firm hold a current tier-eligible Claude certification.	Certified has no deployed joint customer or public customer story requirement.	Meet the requirement by the end of a month and your promotion follows the next month.

Partner status begins at Certified. Registered is the on-ramp to the program. Monthly promotions to Certified and Select begin in November 2026. Once promoted, you keep your tier through at least the next annual review on December 31.

02 · What counts toward Certified

01 **Tier-eligible certifications.** Claude Certified Developer: Foundations, Architect: Foundations, and Architect: Professional.

02 **Counted per person.** A certification counts until it expires, and a person who holds several counts once.

03 **Associate.** Claude Certified Associate: Foundations is a fluency credential and does not count toward tier requirements.

03 · What you unlock at Certified

Your Certified badge. Download the badge files in the Claude Partner Hub and use them per the Partner Co-Marketing Guidelines.

An announcement kit. Approved wording for LinkedIn and your own channels, sent with your promotion email.

Full Partner Hub access. Your access to the Claude Partner Hub moves from limited at Registered to full at Certified.

Your tier in the Partner Hub. Your Certified tier shows in the Claude Partner Hub within 24 hours of your promotion email.

Benefits stack, so you keep everything you had at Registered, including Anthropic Partner Academy access, the monthly CPN Connect broadcast, PAM AI, and Services Registration. The directory listing, sandbox credits, certification exam discounts, and the Customer Story Incentive begin at Select.

04 · Announcing your Certified status

Use the approved line. “[Firm] is Certified in the Claude Partner Network.” Wait for your promotion email before you post.

Keep it accurate. Avoid wording like “Anthropic-certified” or “certified by Anthropic,” and do not describe your firm as a Select, Preferred, or Global Premier partner.

Social posts, not press. No press releases or newswire announcements. Do not mention tier requirements or incentive amounts, compare your firm with other partners, or name a customer without written consent.

05 · Keep building toward Select

Select is where we recognize a validated Claude practice. It takes **10 active certified individuals, 2 deployed joint customers, and 1 public customer story**, and promotions run monthly. Firms that meet a higher tier’s requirements are promoted directly to it.

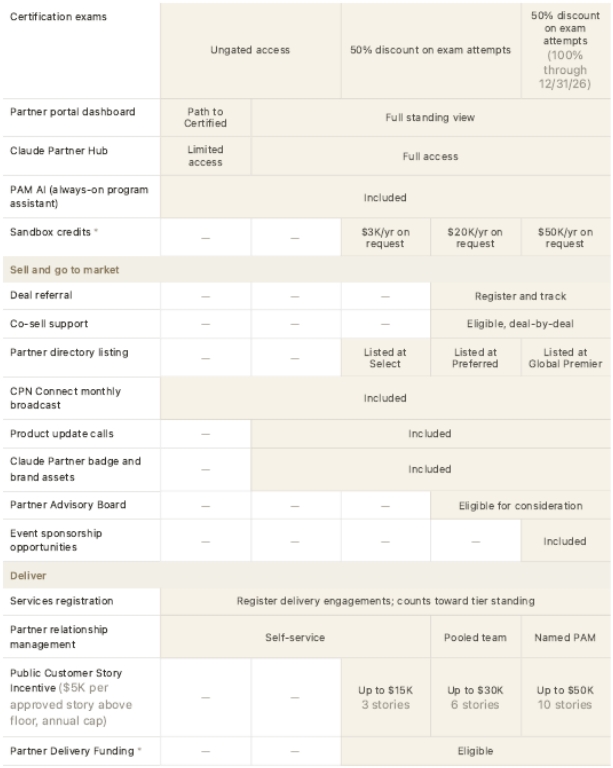

How to get there: certify more of your team, register every delivery engagement in the Claude Partner Hub as soon as scope is agreed, and publish and nominate your customer stories.

Questions? Start with PAM AI in the Claude Partner Hub. For further help, reach out to partner-support@anthropic.com. Full details for every tier are in the Program Guide, in the Content section of the Claude Partner Hub.

Claude Partner Network · Certified tier — October 2026

Certified Tier 1-pager – our tier at a glance, what counts, what unlocks, how to announce.

4. What we get now and what comes at Select

Certification exams	Ungated access		50% discount on exam attempts		50% discount on exam attempts (100% through 12/31/26)
Partner portal dashboard	Path to Certified	Full standing view			
Claude Partner Hub	Limited access	Full access			
PAM AI (always-on program assistant)	Included				
Sandbox credits *	—	—	$3K/yr on request	$20K/yr on request	$50K/yr on request
Sell and go to market					
Deal referral	—	—	—	Register and track	
Co-sell support	—	—	—	Eligible, deal-by-deal	
Partner directory listing	—	—	Listed at Select	Listed at Preferred	Listed at Global Premier

Partner Advisory Board	—	—	—	Eligible for consideration	
Event sponsorship opportunities	—	—	—	—	Included
Deliver					
Services registration	Register delivery engagements; counts toward tier standing				
Partner relationship management	Self-service			Pooled team	Named PAM
Public Customer Story Incentive ($5K per approved story above floor, annual cap)	—	—	Up to $15K 3 stories	Up to $30K 6 stories	Up to $50K 10 stories
Partner Delivery Funding *	—	—	Eligible		

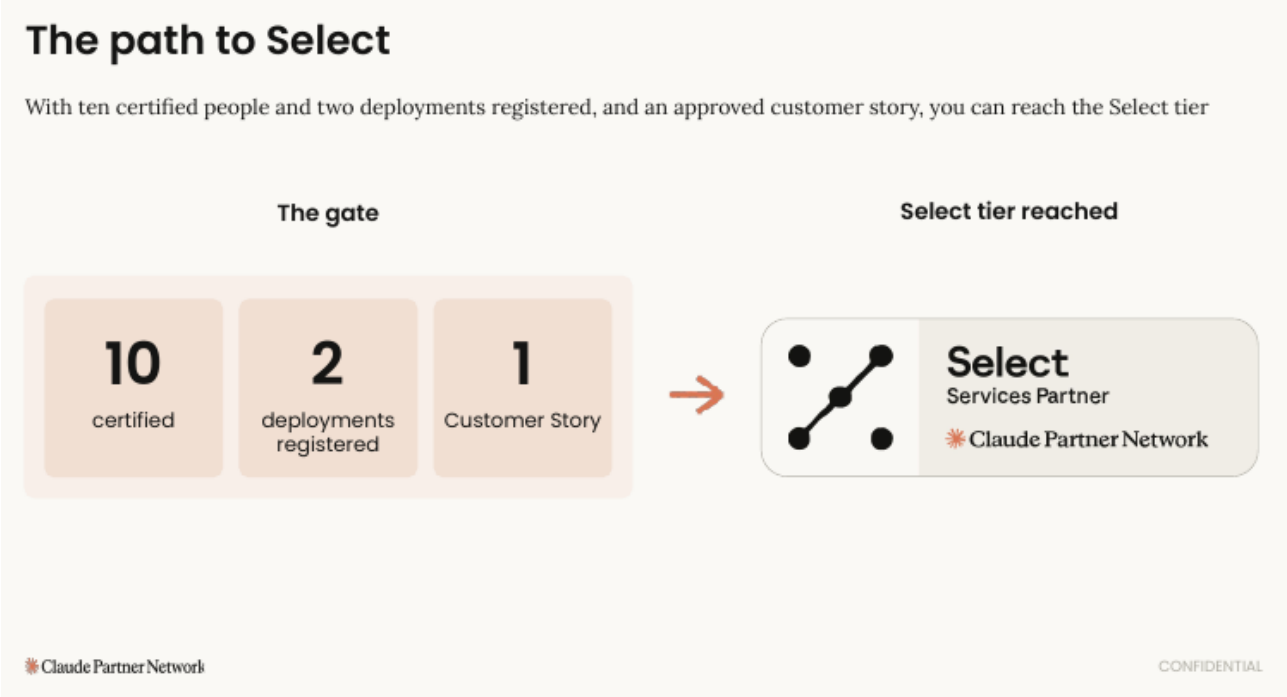

Program Guide p.8 – benefits by tier. Benefits stack: every tier includes everything below it.

Benefit	Certified	Select
Partner badge and brand assets	Yes	Yes
Services Registration (counts toward tier)	Yes	Yes
Sandbox credits (non-production Claude Enterprise, 100 seats)	No	$3K per year, on request
Partner directory listing	No	Yes
Customer Story Incentive	No	$5K per approved story above floor; up to 3 stories per year
Partner Delivery Funding	No	Eligible (separate terms; needs executed agreements and an SOW)
Exam discount	Open access to exams – check price at checkout (our booking was free; Program Guide shows 100% through 31 Dec 2026)	50% (grid)

5. Path to Select – a 90-day plan

From “Your first 90 days” (Partner Success Hub, Topic 02). The three numbers to reach: **10 certified, 2 deployments registered, 1 customer story**.

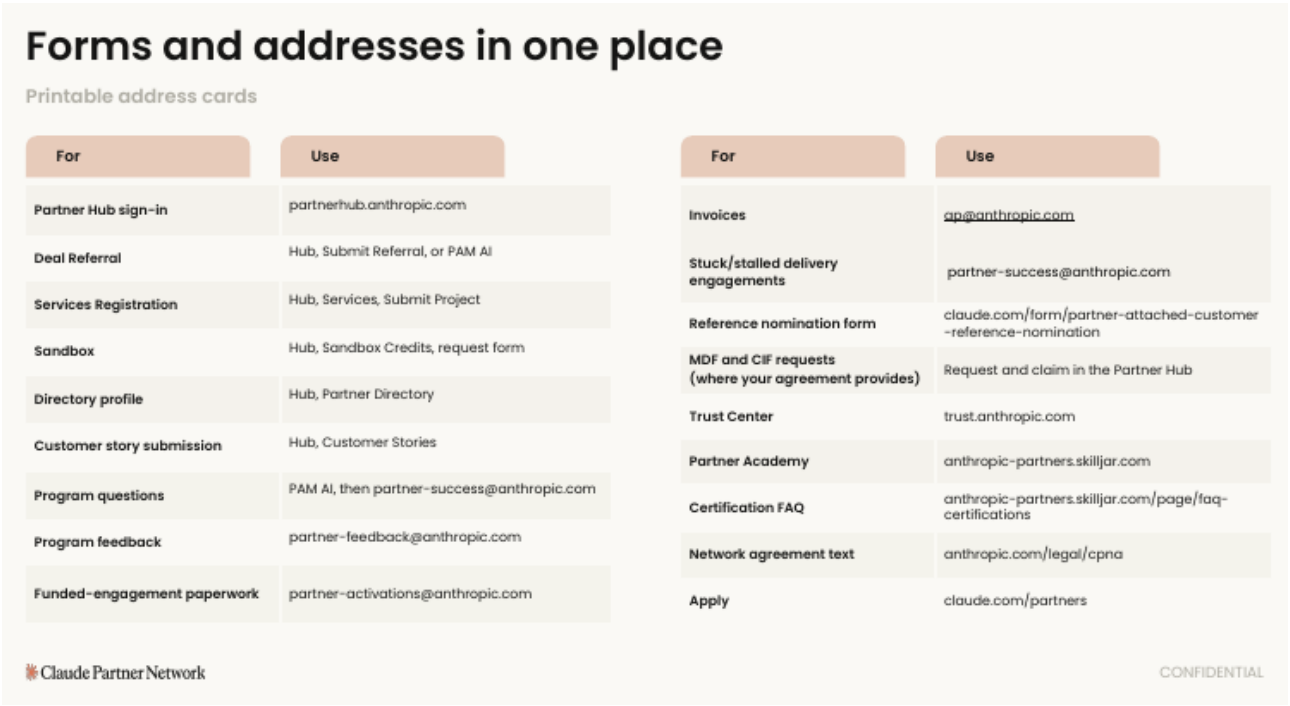

Weeks	Do
1–2	Choose the “anchor” unit; **name the ten people** who will certify; open the customer-story conversation with one client; run Claude on our own teams first (“Customer Zero”).
3–8	People certify (Academy courses, then exams); accept the agreement; sign vendor / customer paperwork.
9–12	Register live engagements; submit the first story; check the Hub scoreboard.

Your first 90 days, p.9 – the path to Select gate (10 certified, 2 deployments registered, 1 customer story).

6. Who to contact

For	Go to
Any question	**PAM AI** inside the Partner Hub (partnerhub.anthropic.com) – always on
Program, tier or registration help	Partner Operations – partner-support@anthropic.com (older decks show partner-success@anthropic.com)

Claude Partner Network

CONFIDENTIAL

Contacts and intake deck, p.6 – forms and addresses in one place. Print and pin.

7. Know before you rely on it

- We have **no named Anthropic partner manager** (that starts at Global Premier; Preferred gets a pooled team). Some decks assume one – our route is PAM AI, then Partner Operations.
- **Co-sell and deal referral start at Preferred.** Read the Sales guide for how to sell on our own.
- Several documents have **stale dates or conflicting figures**; see Start Here, section 6.
- A **Delivery Readiness Designation (DRD)** exists for firms with 10 or more active Developer / Architect certified people, 3 documented deployments and 1 contactable customer reference. Certified is the minimum tier named for DRD engagement (contact Partner Operations). Plan for it after Select.

8. Portal documents for the Owner / Admin

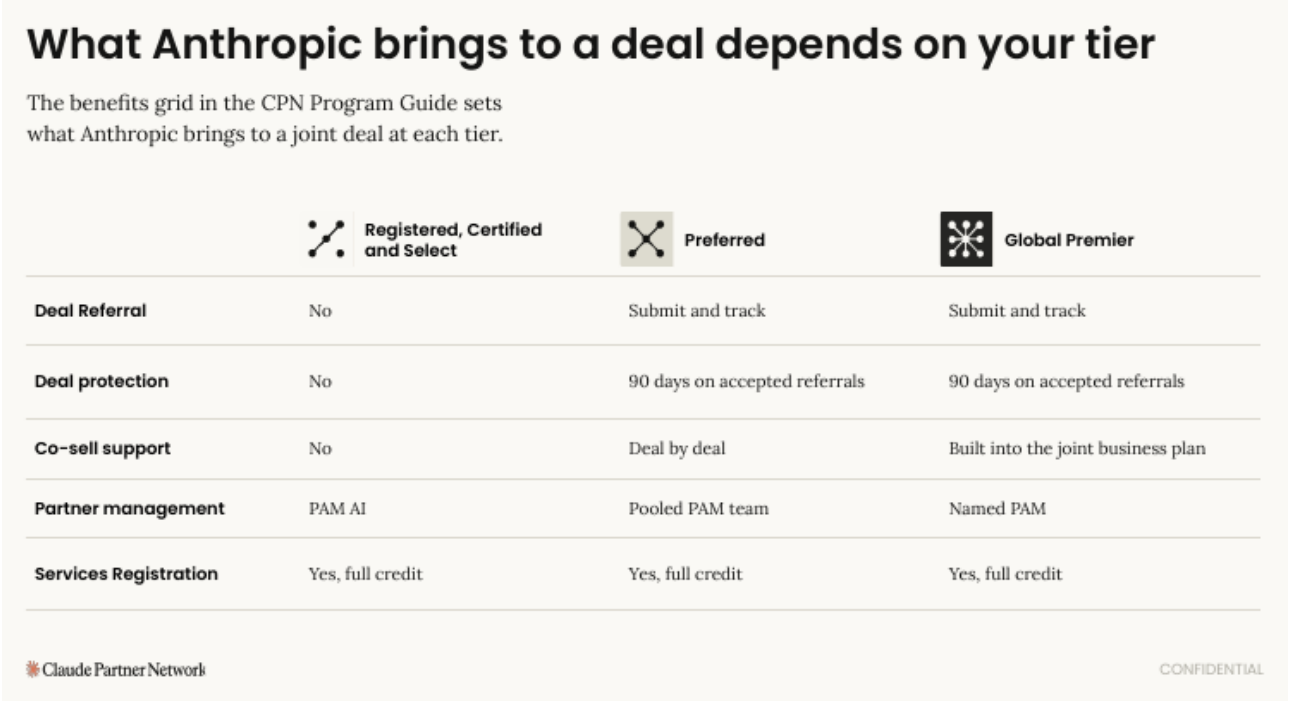

Document (portal name)	Read for	Priority
CPN Program Guide (listed 5 times)	The rulebook: tiers, benefits, registration, funding, escalation – sections 2, 3, 4.3	**Must read**
CPN Program Guide – Services FAQ	28 short Q&As; fastest reference	**Must read**
Certified Tier 1-pager	Our tier, announcement rules	**Must read**
Partner Announcement Kit – Certified	Social wording and rules	Read
02 Your first 90 days	The working plan to Select	**Must read**
01 How the partnership works	Hub overview, what counts toward tier	Read
04 Contacts and intake	Who to contact and escalate to	Pin it
Services Registration Guidebook	How credit is earned	Read (delivery lead owns)
Customer Story Guidebook / Customer Stories – Two Paths	Story rules and form	Read (marketing owns)

Document (portal name)	Read for	Priority
03 Paperwork and commercial instruments	Contracts and exhibits – only for funded work	Later (Select+)
CPN Services Track Launch Guidance	Launch posts for Select and above	Later – no Certified line
CPN Partner Sandbox Guide / Directory profile / Referrals from the Directory	Select-tier benefits	Later

Sales Team Guide

How we sell Claude as a Certified partner · What Anthropic will and will not do for us · Which portal documents to use

The most important fact for sales
Co-sell with Anthropic starts at the Preferred tier. At Certified, Anthropic's own co-sell deck tells us to **"plan to lead your own sales motion"**. We cannot file Deal Referrals (Preferred and above), so we do not get deal protection or Anthropic account-executive involvement through the program.
What we **can** do: sell and deliver our own services, and **register the delivery work** (Services Registration) – that earns full credit toward tier at every level.

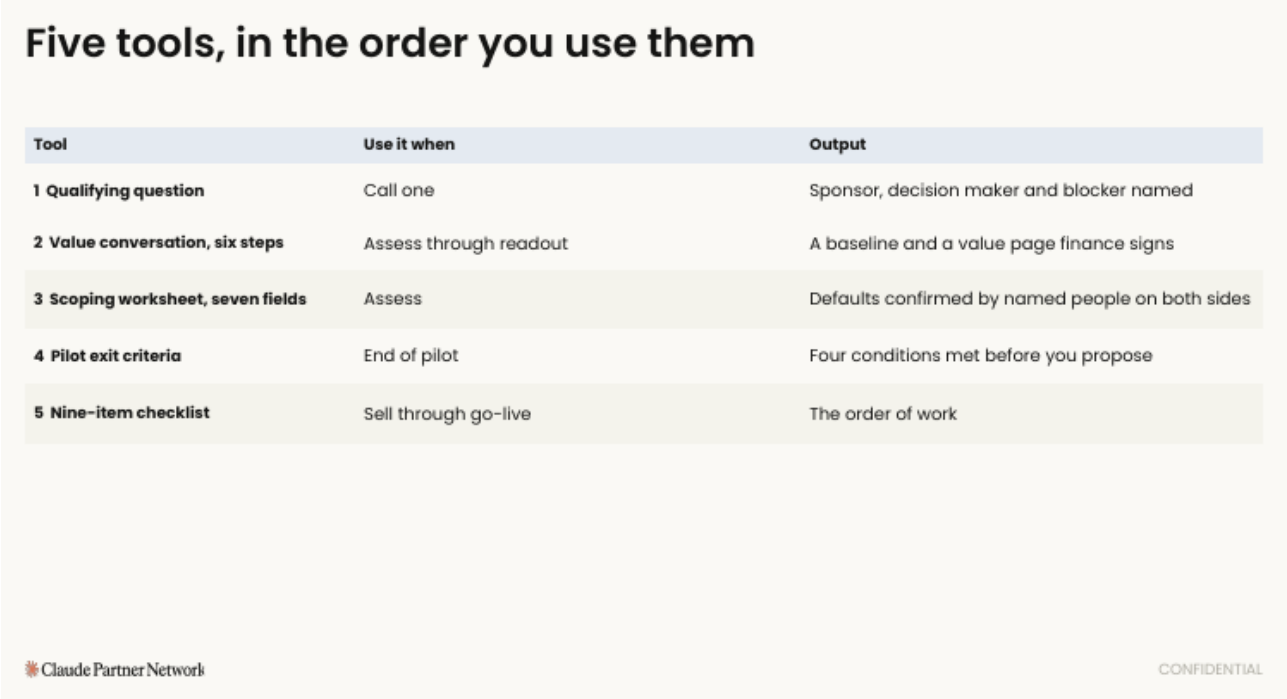

"01 The co-sell motion", p.3 – what Anthropic brings to a deal at each tier. Deal Referral is "No" until Preferred.

1. How a Certified firm sells, step by step

Step	What to do	Portal document
1. Qualify	Open with one qualifying question: name the sponsor, the decision maker and the blocker	"04 Scoping toolkit" (tool 1: qualifying)
2. Value	Agree with the customer how value will be measured (time saved, cost, revenue) before pitching	"04 Scoping toolkit"; "03 Measuring customer value on a Claude activation"
3. Pitch	Position Claude without Anthropic in the room: lead with outcomes, then the model	"02 Positioning and sizing" p.6 and p.8 (talking points)
4. Size	Estimate the Anthropic-side consumption with the seven-step method (not our services fee). Re-check public prices each time	"02 Positioning and sizing" p.12–16
5. Scope a pilot	Use the seven-field scoping worksheet and the four pilot exit conditions; propose a time-boxed pilot	"04 Scoping toolkit" (see p.3 for the five tools)
6. Package	Offer one of the five standard adoption engagements (workshop → enterprise rollout)	"18 Partner Adoption Offerings"; "Activating Claude (Toolkit 1 of 3)"

Step	What to do	Portal document
7. Contract	Use our own SOW (Anthropic provides no SOW template). Collect the customer's Organization ID	Delivery guide, Services Registration
8. Register	Register the engagement in the Partner Hub as soon as scoping starts	"03 Registering and working deals"
9. Prove	Ask for a public story with a measurable result	"Customer Story Guidebook"

Pitch frame and guardrails (Positioning and sizing)
• Sell one of three outcomes: **smarter employees, faster processes, or transformative products**.
• Land small, prove, then expand: a two-to-four-week pilot with metrics agreed first.
• **Never quote price, discount, seat minimum, term or funding** – "Anthropic will quote that". Take all rates from the current public pricing page.
• Pilot burn is not ARR – size consumption from real pilot traffic, with a low / base / high range.

Scoping toolkit, p.3 – the five tools in the order you use them: (1) qualifying question, (2) value conversation, (3) scoping worksheet, (4) pilot exit criteria, (5) nine-item checklist through go-live.

2. Five habits from Anthropic's co-sell playbook that still help us

These come from "01 The co-sell motion" (p.11–18). The deck assumes referrals, so use them as **our own** internal sales discipline and confirm with Partner Operations before relying on Anthropic involvement.

- **Let the customer ask for Anthropic's involvement** – pull, not push.
- **Five Checks** before involving Anthropic on a deal: (1) a named sponsor who owns a budget and knows you are involving Anthropic; (2) a workload described in one sentence and tied to one of three outcomes; (3) the customer agreed a next step and the engagement is scoped (what, for whom, how long); (4) a realistic first phase sized to the users in scope; (5) our own team uses Claude every day.
- **One-page brief** instead of a long deck (see the Partner Opportunity Brief template).

- **20-minute first call** with a fixed script (0–3 / 3–6 / 6–15 / 15–20 minutes). The worked example uses 15 minutes – pick one and standardise.
- **Fortnightly update email** to everyone on the deal.

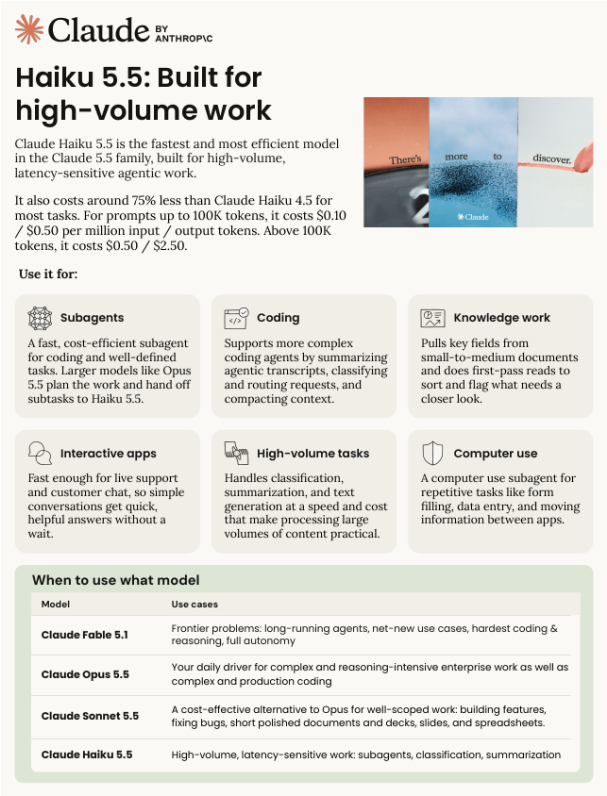

3. Customer routing by size (from the co-sell deck)

Customer size	Who handles it at Anthropic
Under 50 seats	Self-serve at claude.com/solutions/enterprise
50–150 seats	Anthropic inside sales (Preferred and above tag the referral “Seed deal, 50+ seats”)
150+ seats	Commercial account executive via a standard Deal Referral (Preferred and above)

4. Product sales kits – what to use, and who may see it

Rule of thumb: the short 2-pagers are written to be handed to customers; most decks and FAQs are stamped **CONFIDENTIAL** or contain internal sales coaching. **Confirm Anthropic's sharing terms before sending anything outside the firm.** Always use the newest model family first.

Product	Start with	Then	Sharing
Claude Haiku 5.5 – fast, low cost; high-volume work	Haiku 5.5 2-pager	Haiku 5.5 FAQ (migration from Haiku 4.5); slides	2-pager looks customer-ready; FAQ / slides internal
Claude Sonnet 5.5 – everyday work, agents, coding	Sonnet 5.5 Sales 2-pager	Sales FAQ; slides	2-pager customer-ready; others internal
Claude Opus 5.5 – hardest professional work	Opus 5.5 2-pager	Opus 5.5 Sales FAQ; slides	2-pager customer-ready; others internal
Claude Fable 5.1 – top model, long-running high-stakes work	Fable 5.1 2-pager	Fable 5.1 / Mythos 5.1 / EFS Sales FAQ	FAQ is "for CPN partners". Parts of Enterprise Frontier Safeguards are "in development" – **do not promise availability**
Claude Enterprise	Claude Enterprise deck	–	CONFIDENTIAL – internal
Claude Cowork – desktop agent for business teams	Claude Cowork deck	–	CONFIDENTIAL – internal
Claude Code – coding agent	Claude Code deck	Claude Code checklist (Delivery)	CONFIDENTIAL – internal
Claude for Financial Services	Financial Services 2-pager	Industry evidence pack (FSI)	Customer-style; confirm terms
Build layer: Developer Platform, MCP, Agent SDK, Agents, Agent Skills, Slack	Each product deck	–	CONFIDENTIAL – internal; mostly for technical team
Older: Opus 4.8, Sonnet 4.6	Only for customers still on those models	–	Superseded for price and benchmark advice

Example: Claude Haiku 5.5 2-pager – a short, customer-style summary.

Watch-outs before quoting

• The Opus 5.5 and Sonnet 5.5 documents say other 5.5 models are "coming soon" – **they are now released**.

• The "which model" tables in some 2-pagers still show older models (Haiku 4.5, Sonnet 5, Opus 5).

• The Opus 4.8 deck gives a benchmark (SWE-bench Pro 64.3%) that conflicts with the 2-pager (69.2%) – use the 2-pager.

• The Developer Platform deck is dated (mid-2025 market data). Always re-check live pricing.

5. Industry evidence packs – only where we have real proof

Eight blank forms (Financial services, Healthcare and life sciences, Industrial manufacturing, Retail and consumer, Technology/media/telecom, Travel/transportation/hospitality, Security (CISO), Office of the CFO). Complete one **only** if we have delivered work in that industry: rate our capability honestly, choose 2–3 use cases, get customer permission, record a short demo, return it to Anthropic. Read "02 Industry buildbooks" first. Starter buildbooks are visible to Select and above only.

6. Customer stories sell for us

- A public story is also a tier requirement for Select – sales should **ask for it at kickoff**, not at the end.
- Two paths: (1) a live public story that counts toward tier; (2) a marketing submission for Anthropic to produce and promote. See "06 Customer Stories with Anthropic – Two Paths".
- A story needs a **real number** (for example hours saved or cost reduced) – "improved efficiency" is declined.

7. Later, when we reach Select or Preferred

- **Select:** partner directory listing – customers can find us and send inquiries (“Referrals from the Partner Directory”, “Building a great directory profile”). Pre-draft our profile now: name, website, short description, logo, city, “accepting new clients”.
- **Preferred:** Deal Referral (90-day deal protection), co-sell, the Partner Opportunity Brief to the Anthropic partner manager, the worked co-sell example (“04 A worked co-sell example”).

8. Portal documents for Sales

Document (portal name)	Use it for	Priority
01 The co-sell motion	What Anthropic does at each tier; deal habits	**Read p.1–6**
02 Positioning and sizing	Pitch and sizing method	**Must read**
04 Scoping toolkit	Qualify, value, scope a pilot	**Must read**
18 Partner Adoption Offerings	Five packaged engagements	Read
Activating Claude (Partner Toolkit 1 of 3)	Four-step method to sell as outcomes	Read
Product 2-pagers (Haiku, Sonnet, Opus, Fable)	Customer conversations	**Use**
Product decks and Sales FAQs	Internal coaching	Reference
06 Customer Stories – Two Paths; Customer Story Guidebook	Stories	Read
Account maturity map; Partner Opportunity Brief templates	Upsell planning; joint-conversation brief (needs partner manager)	Later
04 A worked co-sell example	Pattern for a joint deal	Later (Preferred)

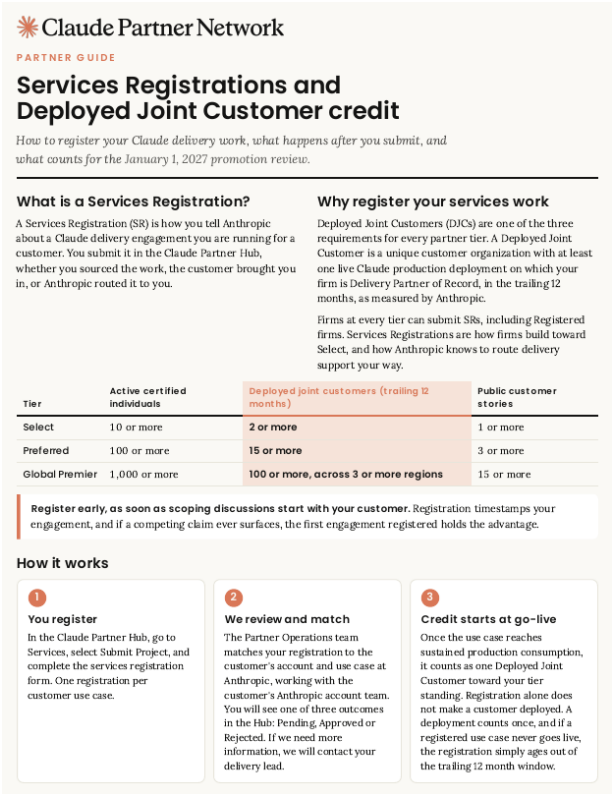

Delivery and Technical Team Guide

How we deliver Claude rollouts and get credit for them · What to register · Which portal documents to use for each job

Two jobs for the delivery team
1. Register every Claude engagement in the Partner Hub so it counts as a **deployed joint customer** (we need 2 for Select).
2. Deliver it the way Anthropic's playbooks describe – 90 days, three gates, measurable adoption and value – so the result is strong enough to become a public customer story.

1. Register delivery work (Services Registration)

Open to **every tier**. This is how Anthropic knows we delivered a customer's Claude deployment. **Credit starts at stage 4 (Delivery Started) or later and counts once the deployment reaches sustained production use.** Pilots and proofs of concept do not count.

Claude Partner Network

PARTNER GUIDE

Services Registrations and Deployed Joint Customer credit

How to register your Claude delivery work, what happens after you submit, and what counts for the January 1, 2027 promotion review.

What is a Services Registration?

A Services Registration (SR) is how you tell Anthropic about a Claude delivery engagement you are running for a customer. You submit it in the Claude Partner Hub, whether you sourced the work, the customer brought you in, or Anthropic routed it to you.

Why register your services work

Deployed Joint Customers (DJCs) are one of the three requirements for every partner tier. A Deployed Joint Customer is a unique customer organization with at least one live Claude production deployment on which your firm is Delivery Partner of Record, in the trailing 12 months, as measured by Anthropic.

Firms at every tier can submit SRs, including Registered firms. Services Registrations are how firms build toward Select, and how Anthropic knows to route delivery support your way.

Tier	Active certified individuals	Deployed joint customers (trailing 12 months)	Public customer stories
Select	10 or more	**2 or more**	1 or more
Preferred	100 or more	**15 or more**	3 or more
Global Premier	1,000 or more	**100 or more, across 3 or more regions**	15 or more

Register early, as soon as scoping discussions start with your customer. Registration timestamps your engagement, and if a competing claim ever surfaces, the first engagement registered holds the advantage.

How it works

1 **You register**
In the Claude Partner Hub, go to Services, select Submit Project, and complete the services registration form. One registration per customer use case.

2 **We review and match**
The Partner Operations team matches your registration to the customer's account and use case at Anthropic, working with the customer's Anthropic account team. You will see one of three outcomes in the Hub: Pending, Approved or Rejected. If we need more information, we will contact your delivery lead.

3 **Credit starts at go-live**
Once the use case reaches sustained production consumption, it counts as one Deployed Joint Customer toward your tier standing. Registration alone does not make a customer deployed. A deployment counts once, and if a registered use case never goes live, the registration simply ages out of the trailing 12 month window.

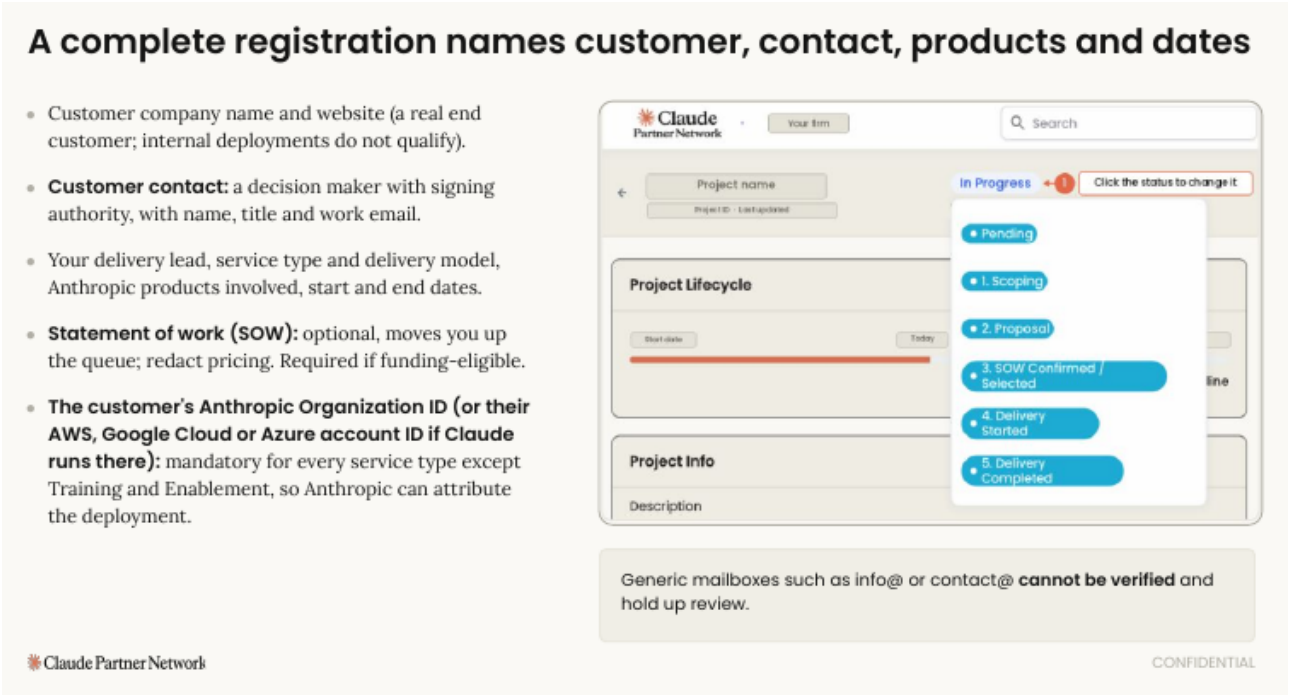

Services Registration Guidebook, p.1 – what a Services Registration is and how it works.

Step by step

- ☐ **When:** register at scoping, and **no later than 60 days after delivery work begins**. Anthropic reviews within five business days.
- ☐ **Where:** Partner Hub (partnerhub.anthropic.com) > Services > Submit Project. One registration per customer use case.
- ☐ **Fill in:** customer company; a decision maker with signing authority and a **work email** (no info@ or contact@); our delivery lead; start and end dates; Claude products; a short description of the use case.
- ☐ **Organization ID:** required for every service type except pure training or advisory. Claude.ai customers: claude.ai > Settings > Account > Organization ID. API customers:

platform.claude.com > Settings > Organization. Customers on Bedrock, Vertex AI or Foundry give their AWS (12-digit), Google Cloud or Azure account ID. **Without it the registration is rejected.**

- ☐ **SOW:** optional, but it moves you to the front of the queue; **required** if the work is funding-eligible (pricing may be redacted).
- ☐ **Keep the stage current:** 1 Scoping, 2 Proposal, 3 SOW confirmed, 4 Delivery started, 5 Delivery completed. Pending and stages 1–3 do not count yet.
- ☐ **Answer any "missing information" request by the date given** or the registration is declined (you may resubmit).
- ☐ **Check status:** Hub dashboard (Current Tier panel) refreshes weekly. Status is Pending, Approved or Rejected.

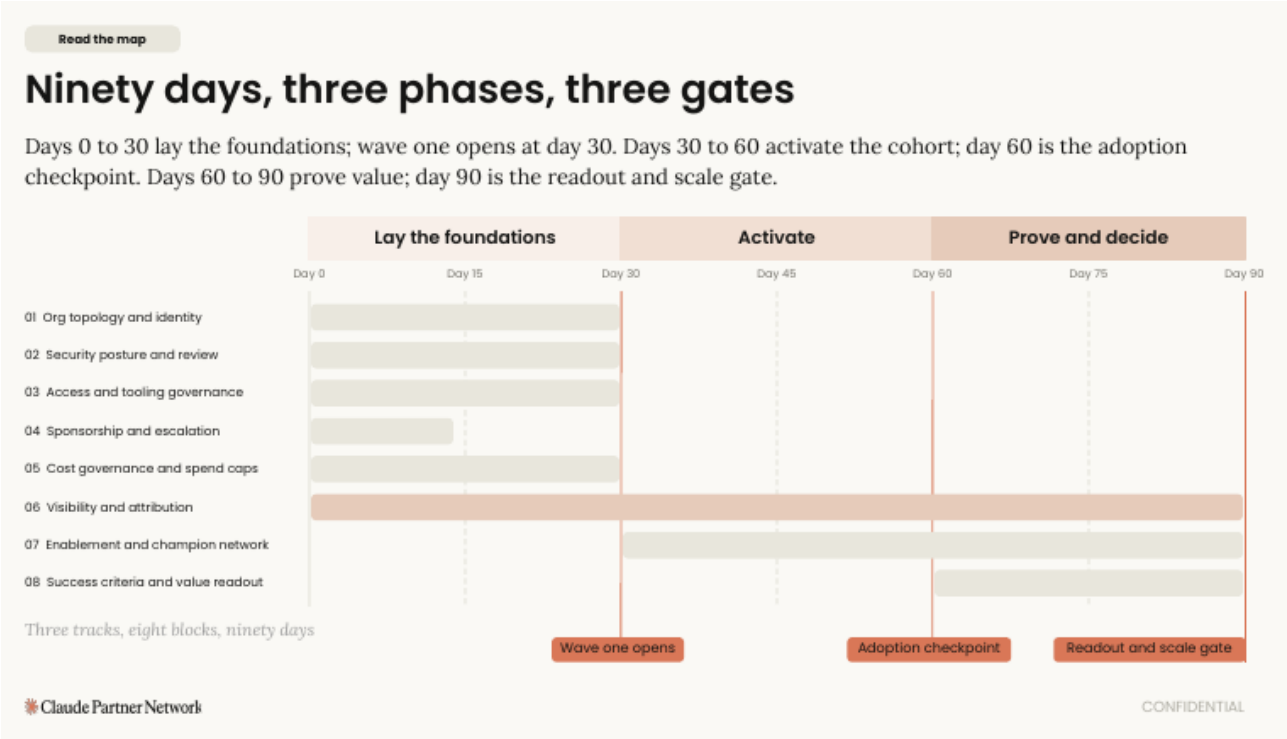

"03 Registering and working deals", p.9 – what a complete registration needs (customer, contact, products, Organization ID).

If two partners claim the same customer: Anthropic settles delivery-lead conflicts within 10 business days, in this order of evidence: customer attestation, contracted scope, delivery activity, registration order.

2. The delivery method in one picture

Anthropic's method has **four steps** ("Activating Claude"): **Day One → Stand-up → Department Activation → Enterprise Rollout**, run over **90 days with three gates**.

"03 The 90-day rollout map", p.3 – days 0–30 lay the foundations, 30–60 activate, 60–90 prove and decide.

Gate	When	Evidence
Wave one opens	Day 30	First cohort of 50–100 users across two to four whole teams; day-0 baseline recorded; about 60% weekly active and 20% beyond chat
Adoption checkpoint	About day 60	About 70% weekly active and 35% beyond chat (example calibration – agree your own targets up front)
Readout and scale decision	About day 90	Value against baseline, adoption and spend by week, three wins. One decision: scale, extend, adjust or stop. **The customer's sponsor presents it**

3. Delivery documents – what each is for

Document (portal name)	What it is	Use it when
Claude Partner Delivery Playbook (78 pages)	The master document: 90-day yes/no checklist (p.3–15), three expert guides – Track A security and governance, B solution engineering and cost, C activation and value – and admin-console walkthroughs	Every first account. Start with the checklist; assign Tracks A / B / C to matching people
Deployment reference checklist	The playbook's checklist as a standalone: eight blocks, sign-off, ten client FAQs, escalation list	Customer kickoff – print it and get four signatures (delivery lead, executive sponsor, security owner, budget owner)
Delivery field guides	Short tour of Tracks A, B, C, one page per decision	Briefing for practitioners before opening the full playbook

Document (portal name)	What it is	Use it when
Delivery templates (Activating Claude) v4.0	13 fill-in templates, T1 to T13: intake page, day-0 baseline, adoption plan (nine named roles), entry and exit checklists, week-by-week plan, go-live announcement, stand-up readout, eight derailers, day-90 readout, recommendations, wave plan, two-weekly update to Anthropic	Copy into our own folder; send T5 to the sponsor at kickoff; schedule T13 every two weeks
Claude Code deployment checklist v4.0	12 items: where model traffic goes, sign-in, policy to laptops, network, permissions, MCP governance, telemetry, spend controls, repository readiness, then pilot 10–30 developers, widen, hand over	Any engagement that includes Claude Code
The Claude Activation Workshop set	Starter kit for the first four weeks with a customer that already has seats	Kickoff agenda for the first practitioner session
Activating Claude (Partner Toolkit 1 of 3)	Example four-step method for outcome-based activation, with visible gates	Our service menu and scoping
03 Measuring customer value	How to agree measurable value with finance on Day One: baseline (60–90 day lookback), checkpoints, day-90 readout	Every kickoff – it produces the numbers a public story needs
Account maturity map and **Partner Opportunity Brief**	One-page grid of what is delivered / in flight / not started per customer function; short brief for the Anthropic partner manager	Maturity map: before each proposal. Brief: only when we have a partner manager (see note)

Note on the Opportunity Brief: it is sent to an Anthropic **partner manager** after the deal is registered. Certified firms do not have a named partner manager – ask PAM AI who to send it to.

4. First-account checklist (do these in order)

- ☐ Register the engagement (Hub > Services) and collect the customer's Organization ID.
- ☐ Book the customer's platform, security and identity teams for Day One; run the Claude Code checklist items 1–4 first if Claude Code is in scope.
- ☐ Capture the **day-0 baseline** (hold first access until it is on file) and have finance sign the value target.
- ☐ Fill the adoption plan with nine named roles (first four by kickoff).
- ☐ Run the entry checklist; agree adoption targets and gates in writing.
- ☐ Every cohort gets the "101" within five business days of provisioning; admins trained two to three weeks before launch; 1–3 connectors live by end of week one.
- ☐ Send the two-weekly update (T13) and use PAM AI for escalations (data retention, encryption keys, capacity, model issues).
- ☐ At day 90 the sponsor presents the readout; update the Services Registration to the right stage.
- ☐ Ask the customer for a **public story with a measurable result** – tell the owner and marketing.

5. Packaging what we can repeat

- **Partner Solution Buildbook framework** and **Industry / Horizontal buildbooks** – how to describe one repeatable offering (customer, partner, Claude bands plus a bill of materials). Starter buildbooks are visible at Select and above; ask PAM whether any are available to us now.
- **Horizontal buildbook outlines:** Claude Code activation, Cowork department activation, security (cyber) services. **Industry evidence packs** (8 industries) – fill only where we have delivered proof.
- **Practice self-check** ("04 Practice self-check") – a yes / not-yet scorecard to run every 30 days; "01 Building your Claude practice" explains roles and the Delivery Readiness Designation.

6. Technical product references

Topic	Portal document	Notes
Claude Code	Claude Code deck	CONFIDENTIAL – internal. p.16 six-sprint modernization example
Cowork	Claude Cowork deck	CONFIDENTIAL – internal
Developer platform and API	Claude Developer Platform deck	Dated (mid-2025 data) – check live docs
Agents, Skills, MCP, Agent SDK	Agents; Agent Skills; Claude and MCP; Claude Agent SDK	CONFIDENTIAL – internal. Plus free courses and repos in the portal (see Document Index)
Model migration and breaking changes	Sales FAQs for Haiku 5.5, Sonnet 5.5, Opus 5.5, Fable 5.1	Read the FAQ for your model before migrating customers

7. Caveats in the delivery documents

- **Prices and beta features:** the Playbook's rate card was last verified **18 August 2026** – re-check every price, model name and beta feature before quoting.
- **Small inconsistencies:** exit checklist has 6 items in one document and 8 in others; adoption targets are 60% in some places and 70% in others; the Workshop set's week-4 row looks like a copy error. Agree one version with the customer and write it down.
- **Tier:** nothing in the delivery documents is gated to a tier except references to a named Partner Success Lead and funded engagements – confirm with PAM AI.

How to Book Your Claude Certification Exam for Free

Step-by-step guide

Before you start
• Open this link: https://anthropic-partners.skilljar.com/
• Sign in with your **company (work) account** – the account provided by your organization, not a personal account. The free price only appears for the organization's partner account.
• There are **4 exams** to choose from. All are free through the partner discount, and each exam can be taken **once**.

The 4 exams

EXAM	LEVEL	COUNTS TOWARD TIER?
Claude Certified Associate	Foundations	No
Claude Certified Developer	Foundations	Yes
Claude Certified Architect	Foundations	Yes
Claude Certified Architect	Professional	Yes

Which exam should I take?
Only the **Developer** and **Architect** exams count toward the firm's partner tier. The **Associate** exam does **not** count. The firm needs 10 certified people (Developer or Architect) to reach the next tier – ask your Training lead which exam to book.
Book before 31 December 2026. The free price is a 100% partner discount that the Program Guide shows through that date.

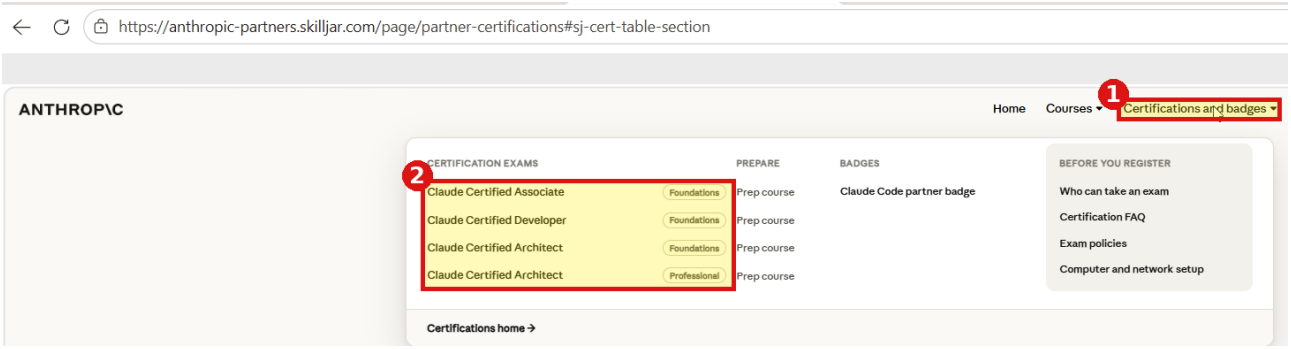

How to read the screenshots: a red box with a yellow highlight and a red number shows exactly where to click or what to check. Follow the numbers in order.

Step 1 – Sign in

Go to https://anthropic-partners.skilljar.com/ and sign in with your **company (work) account**. If you are signed in with another account, sign out first and sign in again with the correct one.

Step 2 – Choose your exam

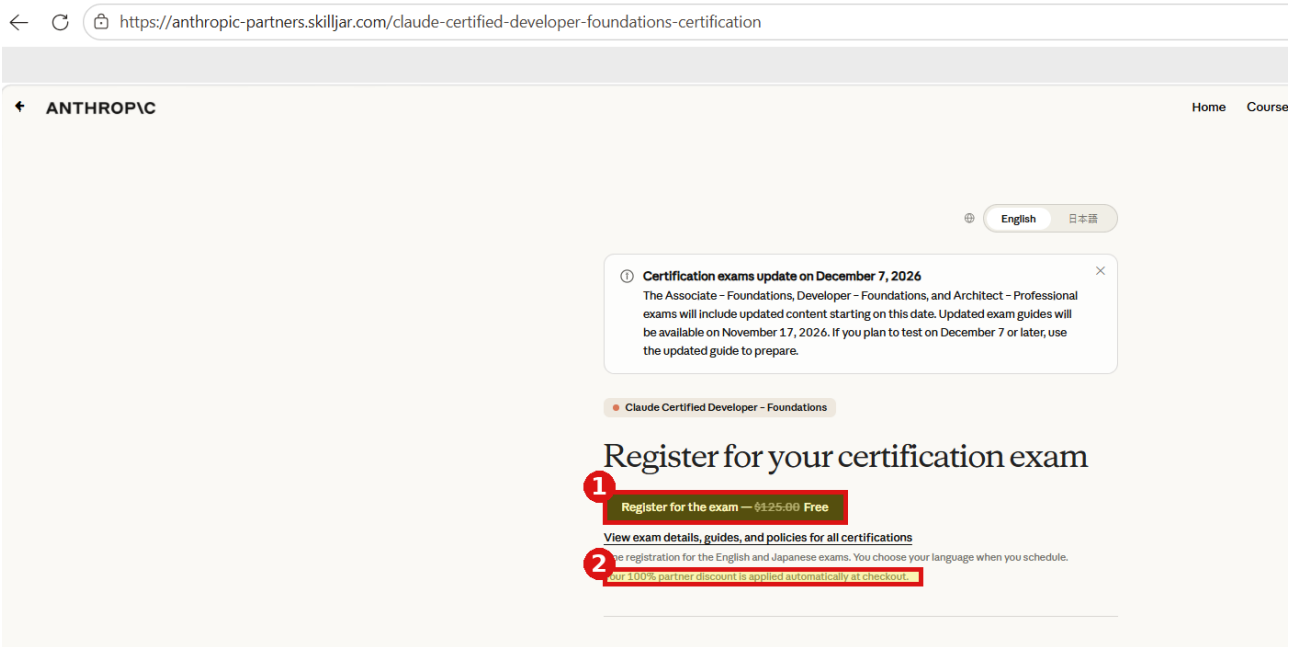

1. Click **Certifications and badges** in the top menu.
2. Under **Certification exams**, click the exam you want (one of the four highlighted).

Tip: use the Prep course links in the same menu to study first – the courses are free.

Step 3 – Click “Register for the exam”

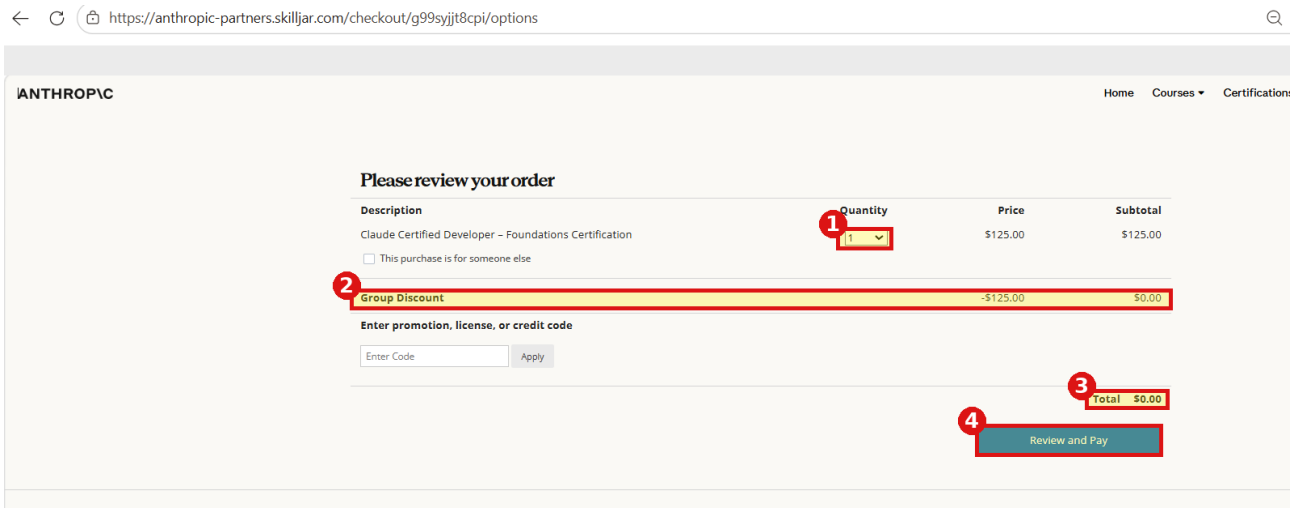

1. Click the black **Register for the exam — Free** button. The price is crossed out and shows **Free**.
2. Confirm the line “Your 100% partner discount is applied automatically at checkout.” If you do not see it, you are probably signed in with the wrong account – go back to Step 1.

(Example shown: Developer – Foundations. All four exams follow the same steps.)

Step 4 – Review your order

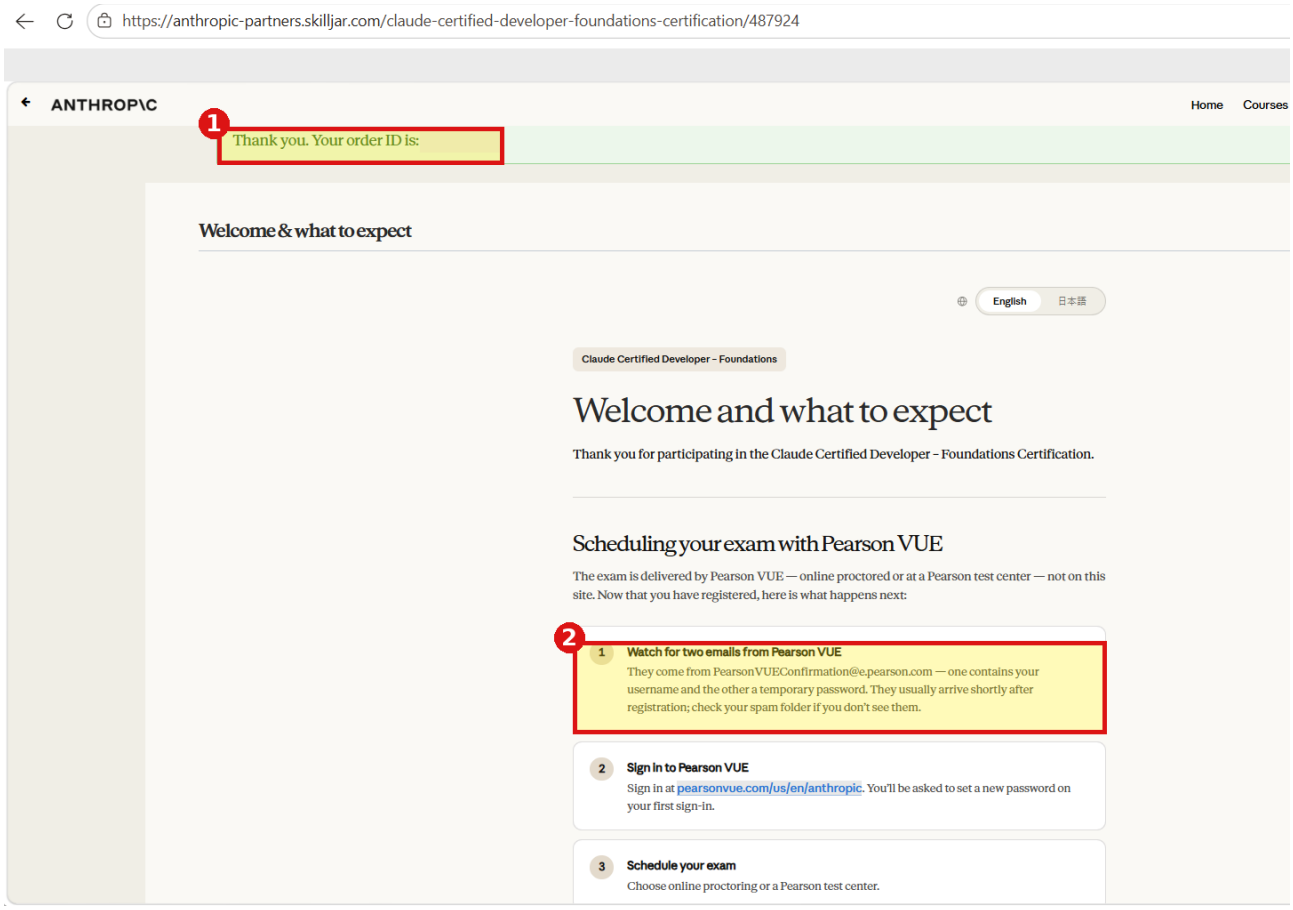

1. Leave the **Quantity** at **1**.
2. Check the **Group Discount** line equals the full price (for example −$125.00).
3. Check the **Total is $0.00**.
4. Click **Review and Pay**.

Do not enter any promotion or credit code – nothing is needed. The discount is applied automatically. If the total is **not** $0.00, stop and contact your administrator before paying.

Step 5 – Confirmation

You will see “Thank you. Your order ID is …”. Save your order ID. Your registration is now complete.

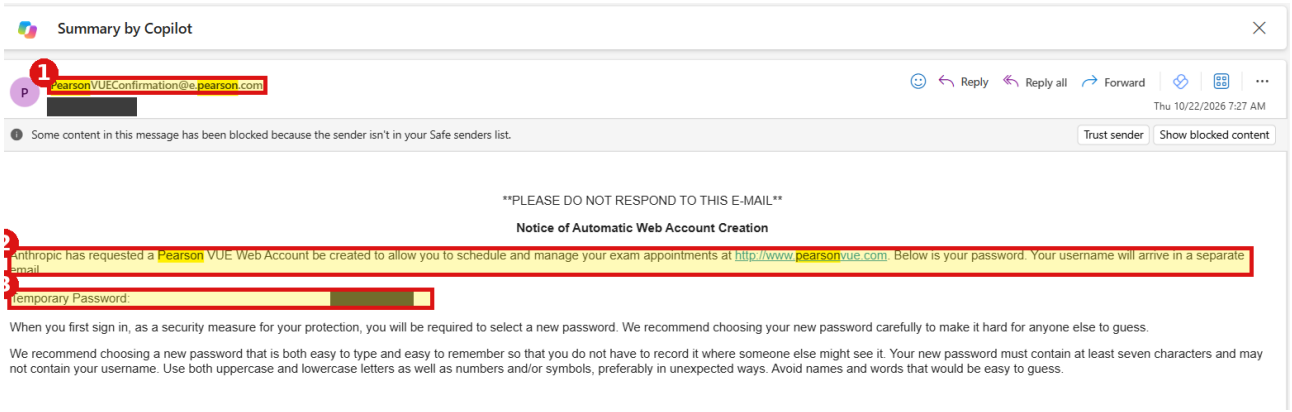

Step 6 – Check your email: two messages from Pearson VUE

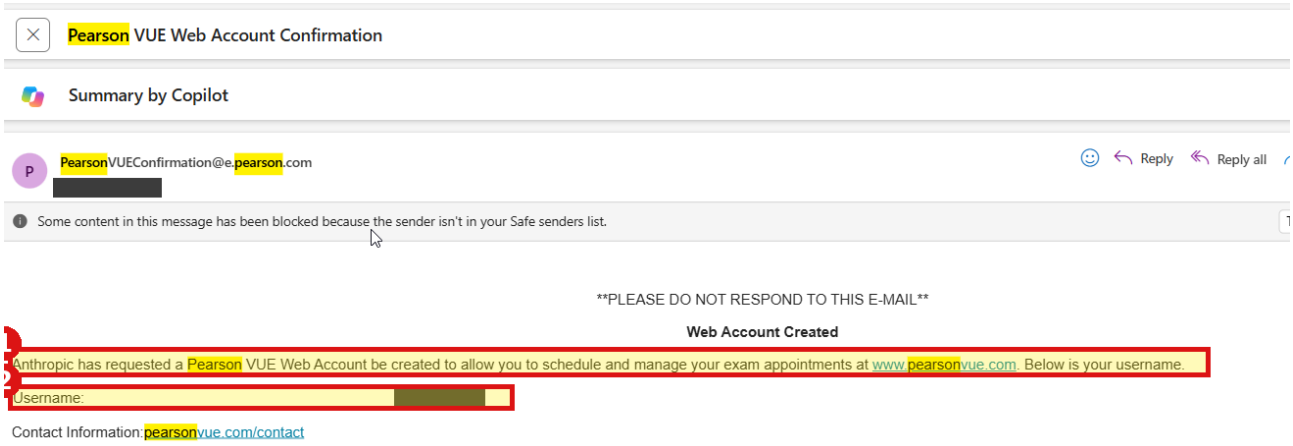

Shortly after registering you will receive **two separate emails** from **PearsonVUEConfirmation@e.pearson.com** (check your spam folder if they do not arrive):

Email 1 – Temporary Password. Subject: “Pearson VUE Web Account Confirmation”. It contains your temporary password.

Email 2 – Username. Subject: “Pearson VUE Web Account Confirmation”. It contains your username.

Email 1 – the temporary password (details hidden in this example).

Email 2 – the username (details hidden in this example).

Step 7 – Sign in to Pearson VUE and schedule your exam

The exam is delivered by **Pearson VUE** (not on the Skilljar site).
1. Go to **pearsonvue.com/us/en/anthropic** and sign in with the **username** (Email 2) and the **temporary password** (Email 1).
2. You will be asked to choose a new password. It must be at least 7 characters, must not contain your username, and should mix upper and lower case letters with numbers or symbols.
3. Choose **Schedule your exam**.
4. Select **online proctored** or a **Pearson test center**, then pick your date and time.

Exam requirements (Pearson VUE)

Identification
• Carry a valid **government-issued photo ID**.
• The name on your registration must match the ID **exactly**.

Testing environment (online proctored)
• Sit in a **quiet, private space** with no interruptions.
• The room and desk must be **clean and clear** of papers, books and unrelated items.
• Use **one screen only** – no second monitor.
• Complete the computer and network check beforehand (see “Computer and network setup” in the Certifications menu).

Good to know

• Each exam can be taken **once**.
• Reschedule at least **24 hours** before your slot.
• Exam content updates on **7 December 2026**. If you test on or after that date, use the updated exam guide (available 17 November 2026).
• Help: certifications-support@anthropic.com (include your order ID).

Training and Certification Guide

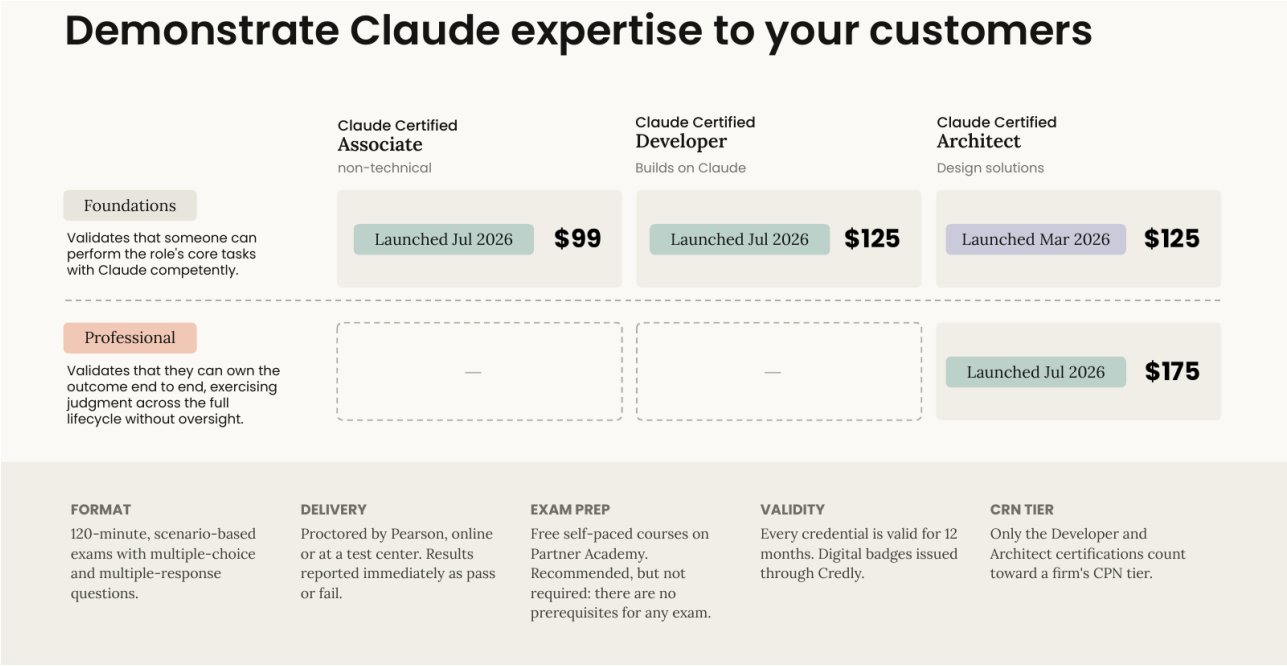

Which exams count · How many people we need · How to build the bench · Where to learn

The one rule to remember
Only **Developer** and **Architect** certifications count toward our tier. The **Associate** exam does **not**. We have **4** certified people today and need **10** for Select – so **6 more people should take a Developer or Architect exam**.

1. The four exams

Exam	Level	List price	Counts toward tier?	Best for
Claude Certified **Associate**	Foundations	$99	**No**	Foundational knowledge; useful for non-engineering roles
Claude Certified **Developer**	Foundations	$125	**Yes**	People who build with Claude
Claude Certified **Architect**	Foundations	$125	**Yes**	People who design solutions; a natural first exam for architects
Claude Certified **Architect**	Professional	$175	**Yes**	Advanced architect level

- **Price:** the Training and Certification Guidebook lists these prices; the Program Guide shows a **100% exam discount through 31 December 2026**, and our own booking showed **Free** at checkout. **Book before 31 December 2026.** The discount applies automatically – there is no code to enter.
- **Format:** 120 minutes, scenario-based, scored 100–1,000, **720 to pass**; delivered by Pearson VUE online (proctored) or at a test center; results are immediate.
- **Validity:** a certification is valid 12 months; renewal is a free non-proctored assessment on the Partner Academy.
- **Retakes:** wait 14 days after the first attempt, 30 after the second, 90 after the third; maximum four attempts per exam per rolling 12 months.
- **Eligibility:** exams are for people at accepted Claude Partner Network firms, registering with their **company-domain email**. No prerequisites; prep courses are free and recommended.
- **One person counts once** toward tier, even with several certifications. Certifications must be current and show in the Partner Hub (updates weekly).

Training and Certification Guidebook, p.6 – the four certifications, price and format.

2. How to build the bench of 10

Role in our firm	Take this exam	Why
People who build with Claude (developers, engineers)	Developer – Foundations	Counts toward tier
People who design Claude solutions (architects)	Architect – Foundations, then Professional	Counts; Foundations is a natural first exam
Managers, sales and other non-technical roles	Associate (optional)	**Does not count** toward tier – do not use it to fill the 10

- ☐ **Name the ten** people (from the 90-day plan, weeks 1–2). Include the 4 already certified.
- ☐ Assign the free prep: Partner Academy courses (anthropic-partners.skilljar.com) – start with the CPN Learning Path, then the role path.
- ☐ Book each exam using the step-by-step Exam Booking Guide in this folder. Each person uses their own company email.
- ☐ Track progress monthly in the Hub (Current Tier panel).
- ☐ Build certification into onboarding and bench time; consider a team exam day and recognition for passes.

3. Where people learn

Resource	What it is	Access
Partner Academy	Free courses and prep for every role; also hosts exam registration	anthropic-partners.skilljar.com – sign in with company email
Role pathways (Training Playbook)	10 role paths (data engineer, data scientist, ML engineer, software developer, platform / cloud, solutions architect, data analyst, project manager, product manager, client principal) each with courses, a build project and an exam	Portal: Partner Training and Certification Playbook
Partner Basecamp	Two-day in-person program (San Francisco and London); needs prior hands-on Claude Code experience; invite only	Ask via PAM AI; partner-basecamp@anthropic.com

Resource	What it is	Access
Claude Code partner badge	Eight courses and a capstone; free	Via the Academy (path/partner-badge-claude-code)
Free Anthropic courses	Claude Code in Action; Introduction to Model Context Protocol; Building with the Claude API; Introduction to agent skills	Listed in the portal content library
Webinars, docs, blog	Product news and how-tos	docs.claude.com; anthropic.com/webinars; claude.com/blog

4. Beyond tier: the Delivery Readiness Designation (DRD)

DRD helps Anthropic match us to customer opportunities. It asks for: **10 or more active** Developer / Architect certified people, **three documented deployments** (Claude Code or Cowork), **one contactable customer reference**, and evidence across six areas (environment and deployment, enablement, governance and administration, adoption and change management, troubleshooting and escalation, security posture). Certified is the minimum tier named; completing enablement does not automatically award it. Use the portal's "04 Practice self-check" every 30 days and email Partner Operations when ready.

5. Documents for the training lead

Document (portal name)	Use it for
Partner Training and Certification Guidebook (listed twice)	Exam prices, rules, 5-step registration, role pages
Partner Training and Certification Playbook v1.1	Role-by-role curriculum (26 pages)
02 Skills and certification for your Claude bench	13-page short version of the Playbook – start here
01 Building your Claude practice	Roles, team shape, DRD, 90-day ramp
04 Practice self-check	Scorecard every 30 days; DRD prerequisites
03 Measuring customer value on a Claude activation	Proving value (shared with Delivery)
CPN Partner Sandbox Guide	**Not for us now** – Select and above only

6. Small errors in the portal documents

- The Training Guidebook p.10 labels the Architect Professional card "Developer – Foundations" (typo).
- Account / domain contact is partner-support@ in some documents and partner-success@ in others.
- Exam prices appear only in the Guidebook – check each exam page for the current price.

Document Index – every portal item in one place

Anthropic Claude Partner Network portal · 120 items = 73 different PDFs (many are repeated under different numbers) + images, a video and links · Prepared 22 October 2026

How to use this index
Find the document by its portal name, read the one-line description, check the **Team** and **Note** columns. “Select+” means the content applies only from Select tier upward – we are Certified. “CONFIDENTIAL” means the document is stamped confidential – keep it inside the firm. Before sending **any** document to a customer, confirm Anthropic’s sharing terms.

A. Program rules and tier – 15 documents · team: Owner / Admin

Portal document	What it is	Type	Note
CPN Program Guide also listed as: 07 CPN Program Guide; 05 CPN Program Guide (three times); (subtitle: The Services Edition)	The governing rulebook for the Claude Partner Network Services track: tiers, benefits, how to register work, funding, escalation and definitions.	Master program rulebook, 28 pages	
CPN Program Guide - Services FAQ also listed as: 06 CPN Program Guide - Services FAQ	Quick answers to the 28 most common questions about joining, tiers, registration, funding and legal terms.	FAQ (titled "Partner FAQ, Services Edition"), 11 pages, 28 questions	
Certified Tier 1-pager also listed as: 07 Certified Tier 1-pager (titled "The Certified Tier")	What the Certified tier is, what counts, what we unlock, and how to announce it and move to Select.	Tier summary one-pager, 1 page	
Partner Announcement Kit - Certified	Ready-to-use wording and rules for announcing our Certified status on social media.	Marketing template kit, 2 pages	social posts only
01 How the partnership works	A one-sitting overview of the Claude Partner Network: the tiers, what counts toward them, who you deal with at Anthropic, how to register work, and what funding and benefits exist.	Orientation slide deck (Partner Success Hub, Topic 01), 30 pages. Pages 1-15 are Topic 01	p.16–30 duplicate Topic 02
02 Your first 90 days	A week-by-week plan for going from decision to Select-tier evidence in about 90 days, with checklists and a 30/60/90 scoreboard.	Action-plan slide deck (Partner Success Hub, Topic 02), 15 pages	

Portal document	What it is	Type	Note
03 Registering and working deals	How to submit a Deal Referral and a Services Registration in the Partner Hub, what reviewers look for, and how statuses and conflicts work.	Step-by-step slide deck (Partner Success Hub, Topic 03), 15 pages	
Services Registration Guidebook also listed as: 08 Services Registration Guidebook; 15 Services Registration Guidebook	The official guide to registering Claude delivery work in the Partner Hub so it earns Deployed Joint Customer credit toward tier.	Partner how-to guide, 6 pages	
04 Contacts and intake	A who-to-contact-for-what cheat sheet with escalation paths, forms, email addresses and how to tell Anthropic what work suits us.	Contact and routing slide deck (Partner Success Hub, Topic 04), 9 pages	
Customer Story Guidebook also listed as: 12 Customer Story Guidebook (document title: Public Customer Story Guide)	How to submit published customer stories for tier credit, share "win slides", or nominate future stories, including exactly what the form asks.	Partner guide with form walkthrough, 2 pages	
Customer Stories with Anthropic: Two Paths also listed as: 06 Customer Stories with Anthropic - Two Paths; 08 Customer Stories with Anthropic - Two Paths	Explains the two different things a customer win can do: count toward tier (reference nomination) or get Anthropic to produce and promote it (marketing submission).	One-page explainer, v4.0, September 2026	
Deal Registration Checklist for Partners also listed as: 14 Deal Registration Checklist for Partners; 05 Deal Registration Checklist for Partners; 07 Deal Registration Checklist for Partners	A pre-submission checklist saying which deals to register as Deal Referrals, how to size them, and which not to register.	Checklist, 2 pages	Preferred+
CPN Services Track Launch Guidance also listed as: 13 CPN Services Track Launch Guidance	Approved wording, social post templates and do/don't rules for announcing a Select, Preferred or Global Premier tier at the program launch.	Announcement guidance sheet, 1 page	Select+
Referrals from the Partner Directory also listed as: 17 Referrals from the Partner Directory	Explains how to find, accept or decline, and follow up customer inquiries that arrive in the Partner Hub from our Partner Directory listing.	Partner how-to guide, 1 page	Select+
CPN Partner Directory - Building a great directory profile also listed as: 16 CPN Partner Directory - Building a great directory profile	Shows how to build and submit our Partner Directory profile in the Partner Hub so customers can find us.	Slide deck (screenshots	Select+

B. Training and certification – 7 documents · team: Training lead, Owner

Portal document	What it is	Type	Note
Partner Training and Certification Guidebook also listed as: 11 Partner Training and Certification Guidebook	A short overview of Anthropic's training and exam options for the people who deliver Claude work, with exam prices, how to register, and FAQs.	Slide-deck guide (September 2026, marked CONFIDENTIAL), 18 pages	
Partner Training and Certification Playbook v1.1	A ready-made, role-by-role curriculum showing which courses, build project and exam each type of employee should do to become staffable on Claude client work.	Slide-deck playbook (August 2026, CONFIDENTIAL), 26 pages	
02 Skills and certification for your Claude bench	A short summary of the Training Playbook that tells practice and L&D; leads who learns what, which exam each role sits, and how certification counts toward tier and the Delivery Readiness Designation (DRD).	Slide-deck summary (topic 02 of the "Claude practice excellence" series, CONFIDENTIAL), 13 pages	
01 Building your Claude practice	A blueprint for staffing, training and proving a Claude practice in about 90 days, including team roles and what the Delivery Readiness Designation (DRD) is.	Slide-deck guide (topic 01 of "Claude practice excellence", CONFIDENTIAL), 12 pages	
04 Practice self-check	A yes/not-yet scorecard to rate our Claude practice every 30 days, produce a gap list with owners, and test our ability to run a client activation.	Slide-deck checklist (topic 04 of "Claude practice excellence", CONFIDENTIAL), 17 pages	
03 Measuring customer value on a Claude activation	How to agree measurable value with the customer's finance team on Day One, track it at fixed checkpoints, and prove it in a day-90 readout.	Slide-deck method guide (topic 03 of "Claude practice excellence", CONFIDENTIAL), 16 pages	
CPN Partner Sandbox Guide also listed as: 08 CPN Partner Sandbox Guide	Explains the free non-production Claude Enterprise sandbox that higher-tier partners get for internal use; it is not available to Certified-tier firms.	One-page guide, 1 page	Select+ only

C. Delivery – 10 documents · team: Delivery / technical

Portal document	What it is	Type	Note
Claude Partner Delivery Playbook (Code & Cowork Activation) also listed as: 19 Claude Partner Delivery Playbook; 04 Claude Partner Delivery Playbook	Anthropic's "how we run an enterprise Claude rollout" written up for partners: a 90-day yes/no checklist, three expert guides (security, cost, adoption) and screen-by-screen admin-console walkthroughs.	Master delivery manual (checklist + three field guides + two console walkthroughs), 78 pages (PDF page numbers below	
Deployment reference checklist also listed as: 24 Deployment reference checklist; 05 Deployment reference checklist	The first 90 days of an enterprise Claude rollout as yes/no questions grouped into eight building blocks, with sign-off, ten client FAQs and an escalation list.	Printable checklist and FAQ, 13 pages (identical to pages 3-15 of the Delivery Playbook)	same as Playbook p.3–15
The 90-day rollout map also listed as: 03 The 90-day rollout map (Delivering success, Topic 03)	Day 0 to day 90 on one page, showing which of eight decisions are live each week and what evidence closes each of the three gates.	One-page-per-idea slide briefing, 9 pages (marked CONFIDENTIAL)	
Delivery field guides also listed as: 02 Delivery field guides (Delivering success, Topic 02)	A short tour of Tracks A (secure deployment and governance), B (solution engineering and cost) and C (activation and value), one page per decision, pointing to the full guides in the Playbook.	Slide summary of three expert guides, 15 pages (marked CONFIDENTIAL)	short form of Playbook tracks
The Claude Activation Workshop set also listed as: 01 The Claude Activation Workshop set (Delivering success, Topic 01)	The starter kit and walk-through for running a Claude Code and Cowork activation with a customer that already has seats: who to book, what to configure, what gets signed, and how to run the first four weeks.	Overview deck for the delivery kit, 18 pages (marked CONFIDENTIAL)	
Activating Claude (Partner Toolkit 1 of 3) also listed as: 17 Activating Claude (Partner Toolkit 1 of 3); 07 and 09 Activating Claude (Partner Toolkit 1 of 3)	An example four-step method for running a larger outcome-based Claude activation, from the first workshop to a company-wide rollout, with gates the customer can see.	Method deck (slides), 25 pages (v4.0, September 2026)	
Delivery templates (Activating Claude) v4.0 also listed as: 20 Delivery templates (Activating Claude) v4.0; 08 and 06 Delivery templates (Activating Claude) v4.0	The thirteen fill-in documents we produce at each point of the Activating Claude method, from the customer intake page to the fortnightly update email to Anthropic.	Template pack (13 one-page templates), 7 pages (Partner Toolkit v4.0, September 2026)	

Portal document	What it is	Type	Note
Claude Code deployment checklist for partners v4.0 also listed as: 21, 09 and 07 Claude Code deployment checklist for partners v4.0	A 12-item checklist of what must be decided, configured and rolled out when an engagement includes Claude Code.	Technical checklist, 3 pages (Partner Toolkit v4.0, September 2026, partner-facing)	
Account maturity map template v4.0 also listed as: 23 Account maturity map template v4.0; 08 Account maturity map template v4.0	A one-page grid showing, per customer function, which Activating Claude steps are Delivered, In flight or Not started, so we can see the next thing to sell.	Fill-in template, 1 page (Partner Toolkit v4.0, September 2026)	
Partner Opportunity Brief template v4.0 also listed as: 22 Partner Opportunity Brief template v4.0; 09 and 06 Partner Opportunity Brief template v4.0	The short form we send our Anthropic partner manager to get a joint conversation with the customer's Anthropic account team, after we have registered the deal in the Partner Hub.	Fill-in template, 3 pages (v4.0, September 2026)	needs partner manager

D. Selling and offerings – 17 documents · team: Sales, Owner

Portal document	What it is	Type	Note
The co-sell motion (Selling together with Anthropic, Topic 01 plus tips)	Explains what "co-sell" with Anthropic means, who at Anthropic can join a deal, how referrals are credited, and a set of habits for getting a fast yes and keeping the account team happy.	Slide deck (marked CONFIDENTIAL), 21 pages	CONFIDENTIAL
Positioning and sizing (Selling together with Anthropic, Topic 02)	A seller's guide to pitching Claude when Anthropic is not in the room, plus a formula and seven-step method for sizing the Anthropic (not our services) side of a deal.	Slide deck (CONFIDENTIAL), 17 pages	CONFIDENTIAL
Scoping toolkit (Joint offering development, Topic 04)	Five practical tools for the pre-sale "Assess" phase: how to qualify, value, prioritize and scope a Claude pilot, and the exit conditions before writing a proposal.	Slide deck / toolkit (CONFIDENTIAL), 16 pages	
Partner Adoption Offerings also listed as: 18 Partner Adoption Offerings (title: "Partner Adoption Offerings: Drive Claude Adoption")	A menu of five packaged adoption engagements a partner can sell and deliver (workshops through enterprise rollout), scoped to Claude Code, Cowork, or both.	Service-offering menu / comparison matrix, 1 page	
Paperwork and commercial instruments (Selling together with Anthropic, Topic 03)	Lists every contract and form behind a joint (especially Anthropic-funded) engagement, who signs each, and how to get paid.	Slide deck (CONFIDENTIAL), 9 pages	funded work only
A worked co-sell example (Selling together with Anthropic, Topic 04)	One fictional joint deal (insurer "Merrow Mutual", Preferred-tier partner "Larkstone") told end to end from first signal to customer story, to copy as a pattern.	Case-study slide deck (CONFIDENTIAL), 16 pages	Preferred+ pattern

Portal document	What it is	Type	Note
Partner Solution Buildbook framework (Joint offering development, Topic 01)	Anthropic's standard frame for describing one repeatable Claude offering in three bands (customer, partner, Claude) plus a bill of materials, so partners and Anthropic field teams talk about offerings the same way.	Framework slide deck (CONFIDENTIAL), 12 pages	starter buildbooks Select+
Industry buildbooks (Joint offering development, Topic 02)	Shows how to choose industry use cases where we have real proof, check them against Anthropic's readiness bar, and return an evidence pack so Anthropic can represent us to customers.	Slide deck with embedded evidence-pack summaries (CONFIDENTIAL), 17 pages	2 wrong slide titles
Horizontal buildbooks: Claude Code, Cowork and cyber (Joint offering development, Topic 03)	Cross-industry offering outlines for three things we could sell: Claude Code activation, Cowork department activation, and security (cyber) services.	Offering-design slide deck (CONFIDENTIAL), 14 pages	outline only
Travel, transportation and hospitality (TTH) industry evidence pack template v4.0 also listed as: "14 Travel, transportation and hospitality (TTH) industry evidence pack template v4.0" (portal title). Part of a set of nine near-identical templates (docs 33-41); this is the full-detail one.	A blank form we complete to prove, with real delivered work, that we can do specific travel, transportation and hospitality use cases with Claude, so Anthropic's sellers can recommend us.	Fill-in slide template (Partner Toolkit), 13 pages	fill only with real proof
Technology, media and telecom (TMT) industry evidence pack template v4.0 also listed as: "13 Technology, media and telecom (TMT) industry evidence pack template v4.0" (portal title)	The blank evidence pack for proving our delivered Claude work in technology, media and telecom; shared structure is described in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	
Security (the CISO organization) evidence pack template v4.0 also listed as: "15 Security (the CISO organization) evidence pack template v4.0" (portal title)	The blank evidence pack for proving delivered Claude work for security teams; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	
Retail and consumer industry evidence pack template v4.0 also listed as: "12 Retail and consumer industry evidence pack template v4.0" (portal title)	The blank evidence pack for proving delivered Claude work in retail and consumer goods; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	

Portal document	What it is	Type	Note
Office of the CFO evidence pack template v4.0 also listed as: "16 Office of the CFO evidence pack template v4.0" (portal title). A function pack, not an industry.	The blank evidence pack for proving delivered Claude work for finance teams; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	
Industrial manufacturing industry evidence pack template v4.0 also listed as: "11 Industrial manufacturing industry evidence pack template v4.0" (portal title)	The blank evidence pack for proving delivered Claude work in industrial manufacturing; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	
Healthcare and life sciences (HCLS) industry evidence pack template v4.0 also listed as: "10 Healthcare and life sciences (HCLS) industry evidence pack template v4.0" (portal title)	The blank evidence pack for proving delivered Claude work in payer, provider, pharma and medtech; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	
Financial services (FSI) industry evidence pack template v4.0 also listed as: "09 Financial services (FSI) industry evidence pack template v4.0" (portal title)	The blank evidence pack for proving delivered Claude work in banking, insurance and wealth; shared structure is in doc_33.md, differences below.	Fill-in slide template, 13 pages (same structure as doc 33)	

E. Product and sales enablement – 24 documents · team: Sales; technical team

Portal document	What it is	Type	Note
Claude Haiku 5.5 2-pager	A concise summary of Haiku 5.5's use cases, model-selection guidance and upgrade reasons, suitable for handing to a customer's team.	Product one-pager (2 pages)	
Claude Haiku 5.5 FAQ	A partner-facing cheat sheet explaining what Claude Haiku 5.5 is, what it costs, who it suits, and how customers move over from Haiku 4.5.	Sales FAQ and messaging guide, 4 pages	
Claude Haiku 5.5 slides	A short customer-style deck positioning Haiku 5.5 as Anthropic's lowest-cost model and showing which Claude 5.5 model to pick for which job.	Slide deck, 4 pages	CONFIDENTIAL
Claude Sonnet 5.5 Sales 2-pager	A short summary of what Sonnet 5.5 is for, why to upgrade from Sonnet 5, and where it sits in the model lineup.	Product one-pager, 2 pages	stale model rows
Claude Sonnet 5.5 Sales FAQ	The detailed sales and technical Q&A; for Claude Sonnet 5.5, covering pitch, pricing, known issues, safeguards and the breaking API changes customers must handle when upgrading from Sonnet 5.	Sales FAQ with launch messaging, 8 pages	

Portal document	What it is	Type	Note
Claude Sonnet 5.5 Slides	A short deck pitching Sonnet 5.5 as the best Sonnet yet, with headline stats, a benchmark slide and a model-choice table.	Slide deck, 4 pages	CONFIDENTIAL
